*Sub B28*  
~~187. (Amended) A system for conducting a game for members of~~  
a broadcast audience in which a member's response to a task is  
evaluated in accordance with response criteria, the system  
comprising:

a recording of a plurality of task sets, a task set comprising  
a task and accompanying response criteria defining at least  
one acceptable response;

*A1*  
*cont*  
means for sequentially transmitting recorded tasks of said  
plurality of task sets;

a playback facility operatively coupled with said transmitting  
means for playing back said task recording;

a plurality of stations broadcasting disparately structured  
programs to their respective audiences, wherein an individual  
one of said plurality of stations receives and selects one of  
said plurality of tasks for retransmission of the task to its  
audience at a time fitting into its program structures,  
wherein audience members receive a program and task  
transmitted by a station to which they are tuned;

means for entering a response to a task by individual audience  
members;

~~a recording of response criteria accompanying said tasks;~~
